

CALL FOR POSTERS
BIAPA 21st Annual Conference
June 27-28, 2023

SUBMISSION DEADLINE:
January 9, 2023

You are invited to submit a Poster Proposal. This year's theme is:

Building on Progress in Brain Injury Rehabilitation and Research

The Conference hosts approximately 350 attendees, including professionals, researchers, educators, persons with brain injury, family members, students, and volunteers. Attendees at the conference have varying levels of experience in working with or living with brain injuries. The Conference is designed to ensure that attendees leave with greater knowledge of effective strategies, best practices, and cutting-edge research and to have opportunities to network and build relationships.

Presentations are a great way to share your expertise and contribute to advances in the field of brain injury rehabilitation. Professionals attending typically include certified brain injury specialists, occupational therapists, physical therapists, speech therapists, social workers, nurses, psychologists, therapeutic recreation specialists, vocational rehabilitation counselors, cognitive rehabilitation therapists, physicians, case managers, personal care home administrators, individuals with interest in alternative treatments, and representatives from various fields of health care.

General Information:

- The Conference is scheduled for two days in order to provide extensive knowledge and a significant number of continuing education units. The dates for the 21st Annual Conference are **Tuesday, June 27 and Wednesday, June 28, 2023**.
- The Conference will be held at the Lancaster Marriott & Convention Center in Lancaster, PA.
- Posters will be displayed outside the general session room.
- Attendees will have scheduled times on Tuesday to visit the poster displays.
- Handouts are optional for posters. Handouts must be supplied by the presenter.
- BIAPA will provide a link to the handout file on the BIAPA website. PDF file versions are preferred. Once selected, handout files must be submitted by May 15, 2023.
- **Poster proposals must be received by noon on January 9, 2023.**

Poster Presentation Submission Guidelines:

- Posters may be no larger than 36" x 48".
- Posters must be mounted on sturdy foam or cardboard and be able to be placed on an easel. Easels will be provided at the Conference for all posters.

Poster Selection Guidelines/Criteria:

- Topics match audience needs and support the Conference theme.
- The proposal addresses at least one focus area on the next page.
- Attendees gain tools, knowledge, or skills that can be applied immediately.
- The poster format stimulates interaction between the attendees and the poster authors.
- The quality of the content meets professional standards.

Building on Progress in Brain Injury Rehabilitation and Research

Focus Areas	Potential Topics
<p>Practical Approaches & Creative Solutions</p> <p>While applicable to all attendees, this focus area may be of particular relevance to clinicians looking for new ways to address challenging behaviors or issues following brain injury. This category will focus on innovative and/or unique approaches to resolving brain injury related issues with an impact on residential/home life, community access, including school and vocational reentry, and true inclusion in society. Methods to reinforce these approaches should also be presented and discussed. Attendees will leave the sessions in this category with an adequate understanding of how to implement the approaches immediately, including strategies and tools to compensate for cognitive and/or behavioral impairments.</p>	<ul style="list-style-type: none"> • Pediatric (Teen Online Problem Solving [TOPS] or similar topic) • Telehealth (cognitive rehabilitation or other therapies) • Wellness initiatives including nutrition, exercise, acupuncture, and sleep hygiene • Rehabilitation of post-Covid complications • Mild traumatic brain injury/concussions • Virtual reality driving instruction • Vocational development and job coaching • Mindfulness, meditation, and other stress-reducing techniques • Management of fatigue • Strategies for emotional regulation
<p>Research, Research in Progress, & Outcomes Measurement</p> <p>This focus area will include presentations on research designs and results representing all classes of research. It should be of interest to graduate students and faculty members in rehabilitation-related curricula; clinical and research staff; and case managers and life care planners. We are encouraging researchers, doctoral/master's level candidates, graduate students, and survivors and family members to present research in progress, ideas for research designs, and research projects for review and discussion.</p>	<ul style="list-style-type: none"> • Update on TBI Model Systems projects • Summary of new research findings in brain injury rehabilitation (may include research in progress) • The value and the limitations of evidence-based research studies • The value of field studies and single-subject designs in post-acute brain injury rehabilitation • Data collection methods for clinicians attempting to validate treatment efficacy • Methods of measuring and documenting outcomes of unique treatment approaches • Ways to incorporate quality of life measures into research • Collaborative approaches to improve outcomes of incarcerated individuals with brain injuries
<p>Supports, Services, & Policy Updates</p> <p>This focus area is applicable to all attendees and is intended to provide information on supports and services. It will include updates on funding, supports, services, advocacy, and legislative efforts. It will also focus on current issues related to legislative and policy decisions that may impact state and national health care concerns. This category will be helpful to clinicians, case managers, life care planners, lawyers, administrators, and management staff, as well as to survivors and family members.</p>	<ul style="list-style-type: none"> • Support groups (already established or in development) • Legislative updates and discussion of proposed/needed legislation • Provider challenges such as staff recruitment and retention, payor issues, and service guidelines • Advocacy efforts (including self-advocacy)
